STOCK SESSION CLOSES RAPIDLY

Opening Dull, But Money Prospects Enthusiasm Later Dealings

NEW YORK, Feb. 8.—Business in the stock market during the early and intermediate periods of today's session was dull to an extraordinary degree but the market quickened and the issue of operations broadened perceptibly in the final hour, a strong tone ruling at the close.

Much of the sudden activity of the later dealings were occasioned by a decline in call loans, from 6 to 7 per cent, shorts accepting this as a decline to easier money rates, oil stocks and equipments featured the sharp rebound at extreme gains of 1 to 2 points. Sales amounted to 475,000 shares.

A spirited recovery in leading international commodities was one of the day's noteworthy incidents. In the bond market, moves of recent fluctuations, including Pennsylvania 6 1/2's and several oil underwritings, continued to fall under their subscription prices. Liberty bonds were irregular, as also were rails and active industries. Total sales, par value, \$11,830,000.
